The joint replacement team provides state-of-the-art surgical care employing up-to-date techniques for the treatment of hip and knee afflictions. Surgical services offered include:

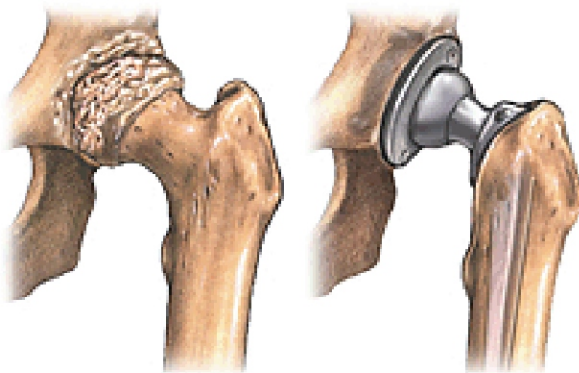

- Resurfacing hip arthroplasty (permitting patients to sit cross-legged and squat after hip replacement)
- Total/partial hip and knee replacement surgery (including unicompartmental knee replacement)
- Revision (re-do) hip and knee replacement surgery
- Other surgeries for degenerative conditions of the hip and knee (osteotomies, arthroscopic debridement, etc.)

- * Comprehensive arthroplasty and revision
- * Extensive orientation, education, and physical therapy before surgery
- * Individualized follow-up care throughout recovery
- * Ongoing research and development of the most durable implant materials
- * Community education through monthly seminars and events
